

### **Instructions for Instructional Tenure Track Faculty Promotion Recommendations**

An outline of the format to be used for promotion recommendations is attached. Each recommendation should be at least three (3) pages, not exceeding five (5) pages. The promotion recommendations for **Instructional tenure track faculty** will be presented to the Regents as electronic files; therefore, we ask that you submit these files electronically to Tammy Deane via the DropBox. The electronic file should be an exact replica of the original printed version (**including** the signature).

The tenure status (with or without) for promotions to associate and full professor must be indicated. Also, if a faculty member has a joint Instructional appointment in your school/college or in another unit of the University, please supply this information on the recommendation. Any other titles that do not need the approval of the Regents, such as adjunct professor, research scientist, etc., should be listed under the Professional Record section of the promotional material. If the individual is being recommended for “tenure” only (without a change in title), please use the wording “is recommended for the granting of tenure to be held with his/her title of (insert title).”
